Experience

Zonifica / Sr Developer / Webmaster / Designer / Hosting provider

March 2011 - PRESENT, San Pedro, NL

Project: Zonifica.com

Sr Developer/Partner. Startup aimed to provide online services to real estate professionals like websites, landing pages, email campaigns, also training and certification. Zonifica.com was created to offer an online MLS service for real estate agents where they can place and share listings to show on their own freemium boards. Also develop a custom API to load maps and listings on external landing pages from Zonifica database. In this project my role was to design and develop using Joomla Framework and Google Maps Api. Design and develop user interface using Twitter Bootstrap Framework, jQuery and GMap3 framework. Migrating from Hostgator to Ubuntu/LAMP Aws EC2 Instance, later into Centos/Plesk Aws Server. Using services like VPC, EC2, S3, RDS, IAM, Route 53, SES in the project. Managing SugarCRM email campaigns merging data from Joomla database agents and leads. Leading team of collaborative developers to design and develop new features for the product. Experienced in version control and source code management tools with GIT and Bitbucket. Also team work management using SCRUM and Kanban methodologies.

Environment: Amazon AWS, EC2, S3, SES, RDS, PHP, MySQL, Apache, SSL, Centos/Plesk, Joomla Framework, SugarCRM, Google Maps Api, JavaScript, CSS, jQuery, Bootstrap, Ajax, Json

Project: CentrodEvaluacionInmobiliaria.com

Webmaster

- Provided web design, web development and web content management.
- Migrated website from Joomla into Wordpress.
- Managed and optimized the SEO data for Facebook share.
- Setting up WooCommerce with Events addon to sell classroom training courses.
- Setting up referral system for reseller partners.
- Using Hootsuite to schedule and share content into social media channels, Facebook, LinkedIn.
- Established a social presence on Facebook, Twitter, Google Places, and Google+
- Created all marketing materials for, and participated in live pitch events.
- Devised all paid online facebook ad campaigns, managed email promotions with SugarCRM.
- Established criteria and strategy to elaborate content for website articles and social media posts.

Environment: Joomla CMS, Wordpress, WooCommerce, SugarCRM, JavaScript, CSS, jQuery, Bootstrap, MercadoPago, Paypal, SEO, Photoshop, Facebook Ads, Google Analytics, Hootsuite

Project: Realketing.com

- Webmaster / Hosting services provider
- Websites and landing pages provider for real estate professionals.
